WORK EXPERIENCE

2025

STEP2SCIENTIST

Worked as a Frontend Developer, building responsive and user-friendly web applications using HTML, CSS, Bootstrap, JavaScript, and jQuery. Developed Laravel-based CRUD applications with authentication features and collaborated on creating clean, functional, and responsive user interfaces.

2025-2026

ZAHIR COSMETICS

Managed digital marketing activities, including video ad creation, basic video editing, and social media content. Supported end-to-end e-commerce operations such as order processing, fulfillment, PostEx shipment management, parcel tracking, payment reconciliation, and customer coordination, ensuring smooth daily business operations.

2026 - Present

ENCODER BYTES PVT LTD

Managing end-to-end Shopify and e-commerce operations, including store development, customization, backend management, product and collection setup, digital marketing support, and AI-powered workflows. Working on real-world client projects to build, optimize, and maintain high-performing online stores.
